

**Participatory budgeting project
Summary of ideas submitted by the community
(as of October 1, 2017)**

Thank you to everyone that has submitted a proposition during the idea collection phase. A reminder that ideas are accepted until midnight, Sunday, October 29 by visiting this webpage: <http://bit.ly/2rno7ui>

The following list includes all ideas received by the municipality as of October 1. They have been classified in one of the four project categories, or placed in an undetermined category, but have yet to be vetted. They are randomly presented in the order they were received during the idea collection phase. It is possible that these ideas may not meet the eligibility criteria.

The evaluation and shortlisting of ideas will be completed by a group of residents during phase 2 which will begin in November. Everyone can take part in this second phase. No need to have submitted an idea to transform your community.

Active community

- More free tennis courts
- Free recreational badminton during the summer
- More cycling lanes on major arteries
- Protected cycling lane from Allain-Gillette Street to Champlain Street
- Increase road infrastructure (roads, intersection lights, magic eye)
